16-23 DECEMBER 2021

WHY ARE WE MOVED TO CREATE ART?

We perceive energy within the brushstrokes, between the reliefs determined by the color lying on the canvas. We sense mystery in the artist's hand and in his rhythmic gestures. There is self-sacrifice to tell what is hidden behind the opaque surface of the shaped material.

This is the last event of 2021

An unmissable opportunity to be part of our glorious 2021 artistic journey

FUERTEVENTURA

CONCEPT EDITED BY LISA GALLETTI, ART CURATOR

Let's take Art and shape it in the likeness of our sacrificial element, eradicating its visible features and removing the superficial formal patina.

Let's build little by little, spot of color on spot of color that delicate and ethereal bridge between the world of things and the world of ideas.
