A CELEBRATION
OF MEMORY
A "Draw in time" Project

MADSGALLERY.ART

INTERNATIONAL ART EXHIBITION

NOVEMBER 19, 2026

Part of the PROJECT: DIBUJA EN EL TIEMPO – Draw in time: Synchronic Impressions from Territorial Strokes & Traces.

A Celebration of Memory. In the Andes, November was a month of remembering out loud. Families brought their ancestors into the light, shared food and music with them, sometimes even danced and carried their stories through the community. Memory was not kept quiet or locked away. It was celebrated. This month at M.A.D.S. Art Gallery, invites you to celebrate yours.

Every mark you make is a gesture in time and a claim on place. When you paint, draw, engrave, or sculpt, you turn a memory into something others can see, feel, and share. November asks: what do you remember, who shaped you and what deserves to be celebrated? We welcome work in any discipline that explores memory, family, heritage, tradition and the people and moments that live on in us. Your piece can be vivid, playful, tender, or bold. Like the Andean festival, this show is a celebration. Your work will exist alongside artists from different generations and cultures, forming a living network where past, present and future meet. Submit your work, share your memories, and leave your trace in time. Let us share your memories… we never know the stories behind the people next to us. Discovering new stories by celebrating them by remembering them. We want to learn … We want to meet the people who shaped you. Tell us about the friend who changed your path, the neighbor, the teacher, the stranger you never forgot. We want to learn about your people, your places and the moments that made you who you are and your artwork is the way to introduce them to us.

Submit your artwork and let us celebrate them with you.

Karla Peralta Málaga. Art curator.

Let us celebrate them with you.
